Generation Z Statistics – 2023

Written by: <u>Branka</u> Posted in: Updated: January, 7, 2023 <u>Home</u> → <u>Insights</u> →

While Millennials are still regarded as the most powerful age group by many, Generation Z has started moving into the consumer spotlight and mind you, they have their own set of preferences which significantly influence consumption patterns. We've prepared these powerful Generation Z statistics to help you craft your marketing strategy for this distinctive demographic bunch whose importance is currently on the rise. Read on to learn more about the interests, shopping habits, and behavior of the generation that has grown up with digital technology.

Generation Z Statistics (Editor's Choice)

- Gen Zers make up 26% of the global population. (Issuu)
- In the US, Gen Zers are expected to account for 40% of consumers. (Business Insider)
- 55% of the Gen Z population chooses eco-friendly and socially responsible brands. (99designs)
- Gen Zers are projected to make a total of 27% of the workforce by 2025. (Mccrindle)
- A whopping 91% of the Gen Z population say technology would be a decisive factor for choosing a job. (Dell)

- Generate page summaries with ease.
 - You can also describe in the prompt how you want the summary to be generated.
- For example:

 \bullet

- bullet points
- Highlights
- key points
- Long/short summaries
- Etc.
- You can do the same with PDFs, Word Docs, and Text files.
- Typically, any file that loads correctly in a browser can be used.

Text to Image Generation

- Uses DALL-E 3 Al image model.
- Use simple or complex prompts to generate images.
- In this example the following prompt was provided.
 - "Generate an image of AI helping college students with their homework."
- Copilot will generate four variations of the image to choose from.
- If none of them fit your needs, simply regenerate or provide a more descriptive prompt.

Feature list

- Generate page summaries for articles, pdfs, etc.
- Each conversation is limited to 30 responses.
- After 30 responses, you have to a new conversation.
- References are provided for general Q&A.
- Text to image generation using DALL-E 3.
- You can provide an image to interact/ask questions.
- Note: You may not be able to interact with a webpage if the webpage owner blocked AI/Bots from searching the page contents.

Microsoft 365 Copilot:

The art and science of prompting

Prompts are how you ask Microsoft 365 Copilot to do something for you — like creating, summarizing, editing, or transforming. Think about prompting like having a conversation, using plain but clear language and providing context like you would with an assistant.

1. Tell Copilot what you need

There are many types of prompts you can use depending on what task you want done.

 Learn about projects and concepts: "What is [Project X] and who are the key stakeholders working on it?"

Edit text:

"Check this product launch rationale for inconsistencies."

Transform documents:

"Transform this FAQ doc into a 10-slide onboarding guide."

Summarize information: "Write a session abstract of this

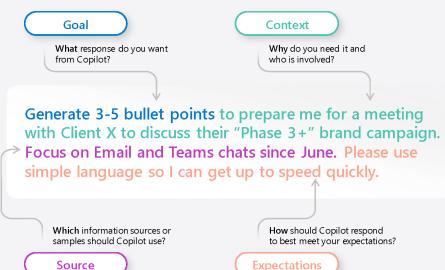

"Write a session abstract of this [presentation]."

Create engaging content: "Create a value proposition for [Product X]."

Catch-up on missed items: "Provide a summary of the updates and action items on [Project X]."

2. Include the right prompt ingredients

To get the best response, it's important to focus on some of the key elements below when phrasing your Copilot prompts.

Microsoft 365 Copilot:The art and science of prompting

3. Keep the conversation going

Following up on your prompts help you collaborate with Copilot to gain more useful, tailored responses.

Generating content ideas Lead with broader requests, then give specific details about the content.

Enabling insightful meetings

Request a meeting recap, then ask for more information about what you should know.

Storytelling assistance

Ask Copilot to write a story, then guide it by giving more specific, relevant details.

Gaining insights Ask for a summary of

Ask for a summary of a specific file, then ask relevant questions to gain deeper insights.

ab Translating languages

Ask Copilot to translate a sentence to one of the supported languages, then ask for more context or a regional dialect.

Present a technical problem, then narrow it down, or ask for step-bystep guidance.

Helpful hints to keep in mind

Know Copilot's limitations. Copilot is limited to your current conversation, so give lots of details.

Be professional.Communicate clearly.Using polite languagePay attention to punctuation,

grammar, and capitalization.

Use quotation marks.

This helps Copilot know what to write, modify, or replace for you.

Avoid interrupting and type "new topic" when switching tasks.

improves Copilot's response.

Start fresh.

🍫 Microsoft 365 Copilot:

Prompting do's and don'ts

Get the most out of Copilot and avoid common pitfalls by learning what to do and what not to do when writing prompts.

Do's

Be clear and specific.

Provide specific instructions to Copilot, such as topic, purpose, tone, and required length.

Keep it conversational.

Give feedback to Copilot based on the quality of its responses to help the AI learn and match your preferences.

Give examples.

Use clear and specific keywords or phrases when asking Copilot to write a piece of text for you. This helps it generate more relevant and creative copy.

Ask for feedback.

Requesting feedback from Copilothelps it to understand your needs and preferences, and to provide you with more relevant, helpful responses.

Write legibly.

Use correct punctuation, capitalization, and grammar when writing prompts, as this will help the AI produce better quality text and responses.

Don'ts

Be vague.

When prompting Copilot, avoid using vague language, and be as clear as possible to receive better-quality responses.

Request inappropriate or unethical content.

Copilot is not responsible for the content or the consequences of your writing. You should respect local laws, rules, and the rights of others.

Use slang, jargon, or informal language.

This may cause Copilot to give low-quality, inappropriate or unprofessional responses.

Check for accuracy.

Occasionally, Copilot may make mistakes. Always check Copilot's responses for accuracy, grammar, and style, and watch out for irrelevant or inappropriate content.

Provide details.

Provide Copilot with contextual details to help it generate more accurate, consistent responses. For example, the genre, characters, and plot to a story.

Be polite.

Using kind and respectful language when chatting with Copilot helps foster collaboration and improves the AI's responsiveness and performance.

Ø Give conflicting instructions.

Prompting Copilot to perform a task that includes multiple or conflicting pieces of information in the same request can confuse the AI and result in lower quality responses.

Interrupt or change topics abruptly.

This could disrupt Copilot's writing process. Always close or finish a task before starting a new one. When starting a new task, write "New task."
